## BLCS

The pro among the coverstitch machines. Enormous penetration force and high precision stitches, even with cross seams. Have you ever taken a closer look at the hems of your t-shirts or sweatshirts? The top of the hem usually looks like a twin-needle stitch whereas the underside of the hem resembles a zig-zag stitch. This is a coverstitch. Compared to a twin-needle stitch and zig-zag stitch produced on a sewing machine, the cover stitch is much more elastic and durable.

### Details

- UNIQUE LOOPERS
- JET-AIR SYSTEM
- MANUAL THREAD TENSION CONTROL
- ADJUSTABLE STITCH LENGTH
- DIFFERENTIAL FEED
- DROP FEED SYSTEM
- HANDY BUILT-IN ACCESSORY COMPARTMENT

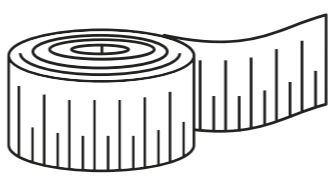

Our baby lock cover stitch features a unique, compact tubular looper system that guarantees fuss-free, quick threading. Extra-strong loopers in a quality similar to that used in industry make your baby lock cover stitch fit for the toughest of tasks. The baby lock range of cover stitch machines are unique in that they are the only ones to chain off, should you run off the fabric. Use this to create belt loops and tassels!
